

Blue Water Group Limited Environmental Policy

Blue Water Group Limited is committed to providing services and that enriches human life and protects the earth environment; Land and vegetation, water and fisheries, air and wildlife.

Blue Water Group Limited, management and its employees are committed to continual assessments of environmental management practices and the prevention of pollution in every aspect of our business activities. Our Policies are outlined as follows;

1. To maintain an Environmental Management System, to guide our business activities and to continually make improvements to our systems where and whenever possible.
2. To comply with all relevant legislation and regulations and strive to exceed whenever possible.
3. To develop employee knowledge and understanding of environmental issues related to job functions.
4. To maintain an operation that promotes proper uses of resources and reduction of waste from existing and future operations.
5. To keep employees, suppliers and customers informed of our Environmental Policy and amendments.
6. To use protective measures to control accidental spills

The implementation of this policy is a primary management objective and the responsibility of all employees.

We will provide our Environmental Policy to customers and other interested parties.

Pat Wilson
President

A handwritten signature in black ink, appearing to read "Pat Wilson", with a long horizontal flourish extending to the right.
